

Great Aussie Bush Camp Reviews

When we got to camp we went to our dorms and ate burgers for lunch. Then our first activity was the flying fox, and the flying fox is really long everyone had two turns and when we were done we went back to the camp. We had afternoon tea and for afternoon tea we had snow cones and fruit. We all got ready to do our next activity, we did damper and house building and for dinner we had spaghetti and then we went to bed. The next day, we did raft building, pioneering, country fair, power fan and giant swing.

By Sam Jake and Rocco

First activities: We did power fan, for some it was scary but really fun. It was a good way to face our fears. It was also very tall. It was amazing. It was also fun to watch people climb up and graciously fall down. I remember Mrs Webb fell on her back and it was really funny. Thankfully she was ok.

We also had burgers for lunch and fried rice for dinner.

Second activities: We did pioneering and it was really fun when we did teamwork activities. We made old style stretches and slingshots. It was really fun but we used lots of teamwork. Everyone was doing something and it was really fun.

Third activity: We did flying fox, it was really fun and fast. We loved it and had the best time. We did it with different people and different people cached us each time. It was Lily's favourite activity.

Fourth activity: Raft building was fun and used teamwork. It was really cool when we did it because it was morning. We had spaghetti Bolognese for lunch and dinner.

Fifth activity: Treetops, it was really high but fun. It took us all awhile to get used to it but we got there eventually.

Sixth activity: we packed up our stuff and took it to the hall at great aussie bush camp and we did our last activity, agility. We used all our weight and tried to get across logs. It was fun but hard. We had garlic bread for lunch and dinner.

Overall, it was a fine time, with good food and fun times with friends.

Highlights of Aussie bush camp

My report of Great Aussie Bush Camp, defiantly the activities were the best thing there. The activities included the power fan, high ropes, giant swing, dual flying fox and more. Also, the night activities were fun as well like commando and county fair. The food was all right. We had food like spaghetti and fried rice, burgers and heaps of snow cones. The boys dorms were crazy at night no one could get to sleep because of the noise also a body guard called Rob was looking after us. That is our report on Great Aussie Bush Camp.

By Benji & Archie

Great Aussie Bush Camp was very fun we did lots of amazing activities some of our favourites were.

1. 6.commando
2. 5.build a raft
3. 4.duel flying fox
4. 3.high ropes
5. 2.power fan
6. giant swing

The food was a 5/10, the spaghetti was bad and the burgers, but the snow cones, fried rice, ice cream still remain good. Sausage rolls with the soft drink was the best food at the camp. That is why Great Aussie Bush Camp was the best thing in the world! Maybe you should visit it one day?

This is how it was at Great Aussie Bush Camp. We got to do many fun activities and while we were having fun some people got to face their fears. The activities were amazing, the best ones were, high ropes, giant swing, power fan and flying fox. Spotlight was very fun although the teachers were very good at finding everyone. The food was okay but definitely better than Canberra, our favourite thing we ate was the ice cream. The rooms were pretty good although they looked like we were in jail and the mattresses were very uncomfortable. Overall, Great Aussie Bush Camp is a great place to have a school camp.

The activities were power fan, dual flying fox, big swing, high ropes, agility, and the nights activity were so fun, called commando but I beat MY FEARS OF HEIGHTS.

The food wasn't that bad, we had burgers, toast, cereal, the sleep was really bad the first night but it got better the second night. We also slept in the same dorm with Sam, Eddie, Thomas, Benji, Brandon, Ari.

We highly enjoyed being at great Aussie bush camp. To start the food was good, the first night we had spaghetti and the second night we had fried rice. The activities were amazing for example the power fan and the big swing were thrillers but best of all the night activities were super fun which includes county fair and commando where you got to run around in the dark. The rooms had a good space with 7 bunkbeds and even had an air conditioner. There were also fantastic instructors, and they were really kind through our stay. Our favourite thing to do at the great Aussie bush camp was by far the dual flying fox where 2 people would go down a long flying fox and get caught at the end by other people. Overall, our experience at GABC was highly enjoyable and we would love to go there again another time.

In camp Agastya and I were in the same cabin sleeping there and doing activities in the cabin too, and outside of the cabin. The activities at Aussie bush camp included power fan, giant swing, dual flying fox, high ropes, agility initiatives, commando and more. The food over at Aussie bush camp was very interesting and weird at the same time. Therefore, Great Aussie bush camp was a great school trip overall.

The Great Aussie Bush Camp was very fun, our favourite part of camp was the giant swing, the giant swing was heart racing with a drop of 13 metres, there was a power fan, which was also 13 metres, we had to step off a ledge like bungee jumping. On the first night, we had a burger, which tasted interesting. On the second day for breakfast we had choices of cereal, scrambled eggs, and toast, for lunch we had sandwiches and fried rice for dinner. On the third day, breakfast was the same choices. For lunch we had hot dogs and soft drinks. Some of the activities were the flying fox, raft building, high and low ropes. At camp, Violet smashed her toe at the agility initiatives and due to that, she had to go home on the second day. Those were the highlights of camp, we all enjoyed Great Aussie Bush Camp very much and recommend going there with your class!

Our favourite activities were giant swing and power fan. Power fan is when you jump off a telegraph pole. Commando was the funniest because Mr Simon scared our group so bad. High ropes was super fun because when we had to wait on an obstacle, we would just hang off the side. Dual zipline was fun when we had to stay at the bottom and catch people and would give them whiplash. When River went down with Kobi they took out the ladder too early and made him hit the ladder. Then we ended our day with agility and commando. The next morning the first thing we did was power fan it woke us up very quickly, we highly enjoyed having Lambton Public School camp there.
